Dear Physician and GP,

The 2025 Kuala Lumpur Global Musculoskeletal Ultrasound Course with Basic MRI Video Pathology will be held from 18th to 19th May 2025 at Hotel Maya in Kuala Lumpur.

Here are the key features of the course:

THE FOCUS OF THIS MINI FELLOWSHIP COURSE IS ORTHOPAEDIC DIAGNOSTIC AND INJECTABLE INDICATIONS FOR JOINT ULTRASOUND AND TAUGHT BY SENIOR MUSCULOSKELETAL RADIOLOGISTS.

1. All lectures are updated and you will be given a digital powerpoint print out of the powerpoint slides and Ultrasound technique guide booklet with your name on the front cover. You will be given the option to pay to upgrade your Ultrasound technique and Anatomy booklet for more cross-sectional anatomy. Please request this online registration and we will add RM 100 in your registration fee.

Lectures will cover the indications of musculoskeletal ultrasound in each joint. 80 DICOM MRI and ultrasound videos will then be shown. Basic Musculoskeletal MRI anatomy and pathology of each joint often asked in exams will be shown. The lectures will have some MRI correlation of MSK Ultrasound pathology.

2. All participants will receive a chance to be tutored by accredited and Senior Musculoskeletal Radiologists who are experts at Musculoskeletal Ultrasound. They have weekly musculoskeletal ultrasound lists and have plenty of hands-on experience. All these faculty have done 1 to 3 years fellowships in Musculoskeletal Radiology. This is the unique feature of this course.

3. Rehabilitation participants and other delegates will in addition to learning orthopaedic ultrasound of joints which is primary purpose of this course will have a rehabilitation physician sonographer if they want a refresher to teach them upper and lower limb anatomy for botulinum injections and also some common nerve injections.

4. Prof. Dr. John George will share original research and pathognomonic ultrasound findings rheumatoid and gout particularly .

5. The practical session will begin with a demonstration by senior musculoskeletal radiologists and other specialists. There will be 6 hours to practice and learn from the initial tutor and then any other tutor thereafter.

6. Faculty to participant ratio is much lower than most MSK Ultrasound courses (1 faculty to about 7 participants) and plenty of opportunities are provided for hands-on practice.

7. By attending the Global MSK USS with MRI course, you will gain confidence in performing MSK Ultrasound. So, don't think twice. Register online under Physicians and GP course in www.penangmskrad.com.

8. The certificate details that competency to do screening of Musculoskeletal pathology of joints and also ultrasound guided joint procedures has been attained and can be given to insurance companies and third party payors to allow payments to be claimed for these procedures. Eg E Mas accepts this certificate in Malaysia. Can request insurers to recognize this training as it is recognized by NSR.

9. Global Musculoskeletal MRI and Ultrasound courses are top ranked in google search "Best Musculoskeletal MRI course" out of 2 million searches. It is an established course with excellent reviews.

Yours sincerely,

Prof. Dr. John George

"I attended the course in 2024. It was a very well organised course. The conference hall had a high ceiling with one large screen and overhead projector and another side screen for full viewing by all. Food and accommodation in the venue is excellent. Conference general and programme instructions were given prior to arrival which was very helpful to plan. Precourse and post course assessment and powerpoint quizzes followed by discussion was very useful. Two powerpoint volumes of book and one workbook given to each participant. This helps us to follow the class that is taught. The coloured digital printed workbook of techniques is very useful for my day to day practice and ready reckoner for my doubts even after the course. Prof. John got a huge collection of MSK cases and his way of providing tips and tricks to arrive at diagnosis is phenomenal. His teaching skill is worth mentioning. Morning 8 am sharp when you are fresh, lectures will start with a tea break followed by videos of both MRI and Ultrasound cases of pathologies with schematic and gross anatomy correlation.. Following lunch ultrasound demonstration for three hours in different companies high end machines with passionate ultrasound radiology teachers.. Faculty demonstrate each joint and allow each attendee to do and correct their mistakes and make them learn the correct method in a demo session. Very meticulously planned program. Demo teachers answer with expertise in their field which will improve your knowledge and practice skills and do MSK ultrasound with confidence.

The USB given to all participants has teaching material, reference articles, and the reporting format of each joint is very useful and everyday i am reading one reference article and learning. a very useful tool. I find this MSK and ultrasound mini fellowship course is very useful for beginners and practicing radiologists to refresh their knowledge and fine tune your reporting skills. Definitely i will recommend this MSK mini fellowship Course to enhance your skills and report confidently. Happy learning. Thank you for teaching. "

Dr. PM Venkata Sai, India

"Simply Great. The MSK US & MRI course held in Malaysia, organized by Prof. John George, was great as far as the content, duration, experience & way of teaching is concerned. Prof. George himself is very humble & cool, he tried his best to teach us in a very smooth & academic way. I have never attended such a good knowledgeable & extensive course of MSK radiology. We were three from Pakistan, who attended the course. This is true that course was really above our expectation. There were MSK teachers from many different countries but the whole story rotated around respectful Prof. Gorge. He taught us in a very practical way how to incorporate the radiological findings with clinical sign & symptoms. I would strongly recommend my colleagues to attend this course next year. At last not the least, Malaysia itself a very beautiful country to visit. We enjoyed there a lot, visited Langkawi, Penang & Kuala Lumpur. I am very thankful to Prof. George for his kind response to us from beginning of registration till the end of course."

Dr. M Kashif Shazlee, Pakistan

"The course is well-prepared and presented. I feel I have upgraded my basic knowledge due to the the painstakingly gathered materials, organized flow of information, and the accompanying materials including the electronic information (pen drive). The practical sessions which followed in the afternoon were just the cream of the cake with enough opportunities for hands-on training."

Prof. Selvam K., Malaysia

"This is an event that I stumbled upon on Google but was sure it will have a mark in my medical profession for a very, very long time. Thank you Prof for the exciting and stimulating experience!"

Dr Joon Moon, South Korea

"I learned many tips and practical methods to use in MSK ultrasound, and also the pitfalls that I have to be careful of. The knowledge I gain from the course will surely be applied in my practice."

Dr Faisal Parlindungan, Indonesia

"This is my first formal training on MSK ultrasound and it is recommended by my colleagues. This is much more above my expectation with the good materials and supervision from experts."

Dr Chiu, Wing Fat, Hong Kong
