Dear Physician,

The 11th Global Musculoskeletal Ultrasound with Basic MRI Correlation Congress for Physicians & GP's will be held from 25th-26th August 2019 at Furama Hotel Bukit Bintang, Kuala Lumpur, Malaysia.

Here are the key features of the congress:

1. All physicians will receive a chance to be tutored by senior Musculoskeletal Radiologists who are experts at Musculoskeletal Ultrasound and MRI correlation. The practical session will start with a demonstration by the Musculoskeletal Radiologists in the first hour. Subsequently, each participant will be given 10-15 minutes initially to practise the technique shown by the radiologist on the model until all participants in the group have attempted and been shown how to do the technique correctly. This is strictly monitored by an appointed group leader. After this, all participants are free to move to any of the groups and free tables with models to practice and ask any of the faculty if they have any difficulty.

2. There are also opportunities to be trained under expert Rehabilitation Ultrasound specialist, Dr Sheela Theivanthiran. This should be of interest to delegates who would like to learn how to identify injured muscles and subsequently administer PRP or prolotherapy treatment. Upper limb and lower limb nerve anatomy can also be shown. For Rehabilitation specialists, this is a good chance to gain a quick refresher on cross sectional muscle identification for botulinum injections and nerve blocks etc.

3. For Rheumatologists, Dr John George will be showing his latest technique for screening of synovitis in RA and other common arthropathy.

4. Faculty to participant ratio is much lower than most MSK Ultrasound congresses (1 faculty to 7 participants). and plenty of opportunities are provided for hands-on practice. Please note that only 28 places are available to enable personalized training. All groups are combined during lectures and are only split according to subspecialty and level of expertise during the practical sessions.

5. When applying for level of Ultrasound training using the online registration form, please note that Basic level means you have not attended any Basic MSK Ultrasound conference and are not doing MSK USS weekly. Intermediate level means you have attended a Basic MSK Ultrasound conference and are practicing MSK USS regularly on patients. Advanced level means that you are highly experienced in MSK USS and would like more specific teaching of different joints. Please apply for the correct level to ensure effective grouping.

6. MSK MRI and MSK Ultrasound videos are shown during the MRI & Ultrasound video sessions to complement the lectures. The Ultrasound pathology using static images and videos will only be taught after the practical session. This is to ensure that one understands the various imaging planes and images expected of normal ligaments, tendons, muscles and other structures. The abnormal images of pathology will then be easily appreciated as one has already been accustomed to seeing the normal appearance in the standard planes during the practical session. This will lead to a huge appreciation of pathology without the need for actual patients.

7. We have negotiated for special room rates with Furama Hotel valid from 18th-29th August 2019. The hotel booking form will be sent to you via email. Please fill it and send directly to the hotel as per instructions on the booking form. Kindly note that no commissions are taken by the conference organizers for room bookings to keep the room rates low. Hotel booking can be made using credit card and you will not be charged until check-in. Hotel booking can be cancelled up to 24 hours before check-in with no penalty and you will not be asked for your CVV number.

By attending the Global MSK USS with MRI course, you will gain confidence in performing MSK Ultrasound. So don't think twice. Apply using the online registration form available at www.penangmskrad.com today.

Yours sincerely,

Dr John George

"Comprehensive, with good materials and lectures provided, and ample hands-on practice sessions for learning by very patient and experienced facilitators/faculty members standing by to show us the ropes."

Dr Pek Eu Way, Malaysia

"An incredibly insightful hands-on course. Provided a new way of looking at pathology and being able to visualize the underlying anatomy."

Dr Tamara Pooke, South Africa

"This conference is beneficial to improve basic MSK ultrasound skills as it is very comprehensive and practical. Keep up the good work. The hands-on sessions are good and all the instructors are very helpful. The video sessions on pathology are good as well."

Dr Salmina Rifin, Malaysia

"This is an event that I stumbled upon on Google but was sure it will have a mark in my medical profession for a very, very long time. Thank you Prof for the exciting and stimulating experience!"

Dr Joon Moon, South Korea

"Learning how to read the ultrasound images really enhanced my understanding of the pathological conditions and how to differentiate them. Clear explanations, patient presenters and correlation to clinical conditions."

Dr Katey Paczek, Malaysia

"Great workshop! This is my first ultrasound workshop and I'm glad to be here. Lots of stations for workshop with real human models and experts to teach. Everyone can practice until he's feeling comfortable."

Dr Chut Nakornchai, Thailand

"I learned many tips and practical methods to use in MSK ultrasound, and also the pitfalls that I have to be careful of. The knowledge I gain from the course will surely be applied in my practice."

Dr Faisal Parlindungan, Indonesia

"This is my first formal training on MSK ultrasound and it is recommended by my colleagues. This is much more above my expectation with the good materials and supervision from experts."

Dr Chiu, Wing Fat, Hong Kong

"This course was wholesome as it covered many important MSK related pathologies. The instructors were very patient and motivated to teach us. It was definitely worth it. I enjoyed it."

Dr Arvin Raj, Malaysia

Congress Overview:

This congress is ideal for Orthopaedic/Sports Medicine Specialists, Rheumatology Specialists, Rehabilitation Specialists and General Practitioners.

Congress Materials & Deliverables:

1. 1 x high quality colour photoprint of powerpoint lecture slides and 1x ultrasound technique workbook worth USD200.
2. 4GB of data resources in a USB thumbdrive worth USD100.
